1. Uvod

1.1 Korišćeni programski jezici

Za izradu ovog sajta su korišćeni sledeći programski jezici: HTML5, CSS3 i JavaScript (jQuery)
Sajt je pisan u Visual Studio Code-u

1.2 Opis funkcionalnosti

Sajt poseduje sledeće funkcionalnosti:
- Navigacioni meni koji skroluje do određenog dela stranice, postoji samo na index stranici
- Dugme „Back to Top" koji se vraća do vrha stranice i pojavljuje posle skrolanja na dole, takodje nestaje nakon skrolanja nazad do vrha. Ovo dugme postoji na obe stranice
- Dinamičko ispisani img tagovi u bloku galerija (samo na index stranici)
- Slike iz galerije su dinamičke i mogu se uvećavati i šaltati, ovo je postignuto korišćenjem fancybox jQuery plugina (samo na index stranici)
- Svaki link je funkcionalan i vodi na neku stranicu ili skida fajl (na obe stranice)
- Klikom na Show more/less dugme prikazuje se dodatan skriveni tekst uz pomoć jQuery-a (samo na index stranici)
- Forma sa regularnim izrazima za svako polje osim checkbox-a (samo na index stranici)

- Klikom na dugme u formi proveravaju se sva polja i ispisuje poruka greške u odnosu na to koja je greška u kom polju napravljena. Ako grešaka nema klikom na dugme se ispisuje poruka da je sve u redu. Takođe se proverava da li je checkbox checkovan (samo na index stranici)
- U futeru index stranice je link ka autor stranici, dok je u futeru autor stranice link ka index stranici
- Sve slike u galeriji su sivkaste i dobijaju boju u periodu od 1s kad se preko njih pređe kursorom
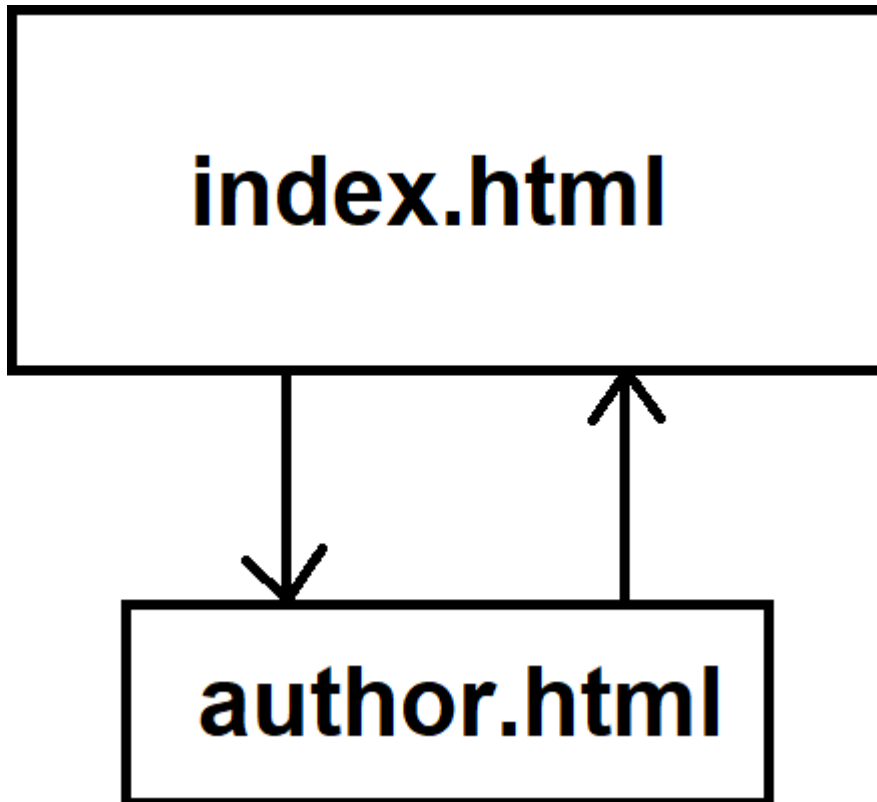

1.3 Template

Za izradu je korišćen template sa sajta: https://www.w3schools.com/w3css/tryit.asp?filename=tryw3css_templates_cafe

1.4 Eksterni CSS

Korišćeni su CSS iz w3schools template-a i CSS za Fancybox plugin

Destiny Lore:

A long time ago, humanity encountered a mysterious alien entity known as the Traveler. A tremendous, floating sphere, the Traveler helped humanity usher in its Golden Age, sharing the knowledge that let humans explore the galaxy, colonize far-off planets, and develop the sort of technology that let us evolve rapidly as a species.
All good things come to an end, though, and the Traveler was eventually followed by its enemy, the equally mysterious and entirely destructive entity known as the Darkness. Things went bad quickly, and after the Traveler seemingly sacrificed itself to drive off the Darkness, there was precious little left of the human species. Various alien races began to move in for the kill, colonizing former human settlements and making humanity's continued existence uncertain at best. Everyone refers to the end of the Golden Age as "the Collapse."

Fortunately (for humanity), the Traveler had taken one last action before expending its energies. After fending off the Darkness, the Traveler dispersed its life force – referred to as "Light" – in the form of small, seemingly sentient "Ghosts" that sought out the greatest, deceased defenders of humanity and reanimated them as "Guardians."

They were tasked with protecting humanity and the remains of the Traveler. The base of operations for Guardians is "the City," the last remaining stronghold for humanity, located somewhere on Earth in the shadow of the Traveler, which is now a floating, lifeless sphere. the Traveler apparently isn't dead, but has been dormant for centuries.

U ovom delu about bloka se nalazi kratki tekst o priči igre, koji se može ekspandovati klikom na dugme

U ovom delu sajta se nalazi dinamički ispisana galerija odrađena uz pomoć fancybox plugina i css biblioteke, slike su posivljene "filter: grayscale" linijom css-a, a doprimaju originalnu boju kad se preko njih pređe kursorom ili kad se otvore

Na ovom delu sajta se nalazi forma za registraciju koja ima svoje regularne izraze za blokadu sadržaja lošeg formata ili ako sadržaj nije upisan/checkbox nije checkovan

Ispod forme, na samom kraju sajta se nalazi footer sa linkom koji vodi na drugu stranicu, o autoru, i link za dokumentaciju

2.3.2 author.html

Na početku ove stranice imamo skoro identični layout kao na index strani, samo sa tekstom "About author" umesto Destiny logo-a, i bez navigacionog menija jer stranica sadrži samo autor blok ispod

U bloku autor je ispisano moje ime kao header bloka i ispod njega tekst o autoru kao i slika autora
